It's Easy to Register

New Students – Register by fax, mail, online, or in person.

Fax: 617.373.5351

Mail: Registrar's Office
Northeastern University
360 Huntington Avenue - 120 HA
Boston, MA 02115-9959

Online: www.ace.neu.edu/registration

In Person: During any open hours on campus or at an open house. See page 10 for dates.

Continuing Students – In addition to using the fax, mail, online, or in-person registration methods listed above, you may also register by phone or with the myNEU Web Portal.

Phone: 617.373.8000

myNEU Web Portal:
<http://myNEU.neu.edu>

See Page 71 for details.

Registration begins October 20, 2003.

Classes begin January 5-10, 2004.

Introduction

With an open-enrollment policy and an open-access philosophy, it has never been easier to start, renew, or continue your education at Northeastern University's Division of Adult and Continuing Education. You can enroll in most undergraduate and professional development courses without submitting an admissions application or taking an entrance exam.

We have the course or program you need to help you get started or move ahead in a career. As a national leader in part-time adult education for over a century, Northeastern continues to offer hundreds of relevant courses each term in such areas as Business Administration, Information Technology, Liberal Arts, and the Biosciences.

After accumulating a number of undergraduate course credits, many students move into one of our degree programs to earn their Northeastern University associate's or bachelor's degrees. Those who already have bachelor's degrees will want to look over our vast assortment of graduate certificate and professional development programs.

To help you balance your educational goals with home and work responsibilities, we offer courses in a number of convenient formats. In addition to the traditional on-campus class meetings, you can opt to take some courses online via the Internet or in a hybrid format that includes some coursework on campus and the remainder online. We also have a selection of degree programs in an accelerated format, your fastest track to a part-time associate's or bachelor's degree.

To help you plan out your educational and career blueprint, be sure to consult with our team of academic advisors. Among other services, these advisors can help you transfer credit from previous academic institutions and even award you credit for related life experiences to give you a head start.

Take a look through this *Schedule Guide* today and let us help you fulfill your educational goals.

Where to Begin

Northeastern University's Division of Adult and Continuing Education reflects the demands of today's employers. We offer an enormous variety of courses and programs to suit the needs of every adult learner, no matter what your schedule or educational needs. This *Schedule Guide* provides you with the schedule of courses for the winter quarter and serves as a guide to help you achieve all of your educational and career goals.

Not ready to enroll in a full program? No problem! Our open enrollment policy gives you instant access to most of our courses, regardless of whether or not you are enrolled in a specific program.

If you are a new student searching for the best way to accelerate your current career, aspiring to start a new career, or just looking to fulfill your quest for knowledge, our Career and Academic Advising services have exactly what you need. If you already know what career or learning experience you'd like to pursue, please feel free to take advantage of our many academic advising options to help you plan the educational path that's best for you.

Our academic advisors are available by e-mail, by telephone, and in person by appointment, walk-in advising, and advising nights. You can find information on all of our career and academic services on pages 5-9 of this *Schedule Guide*.

To learn about special events, find out what's new this quarter, or view our ACCEL and reserved course schedules, please see pages 10-28.

Already know what course you'd like to take? Turn to page 32 for the complete schedule of courses. Don't forget to consider our variety of convenient delivery options, such as online, hybrid, and ACCEL.

About Northeastern University

Northeastern University, a private institution located in Boston, Massachusetts, seeks to achieve excellence as a national research university that is student-centered, practice-oriented, and urban.

Northeastern is a world leader in practice-oriented education, offering a comprehensive range of undergraduate and graduate programs leading to degrees through the doctorate. Building on its flagship cooperative education program, Northeastern links classroom learning with workplace experience, and integrates professional preparation with study in the liberal arts and sciences.

It's Easy to Register

New Students – Register by fax, mail, online, or in person.

Continuing Students – Register by phone or with the myNEU Web Portal, or use fax, mail, online, or in-person registration.

See **Page 71** for details.

U.S. News & World Report recently ranked Northeastern University number one in the nation among programs that combine classroom learning with real-world experience.

Located on the Avenue of the Arts in Boston's cultural district, Northeastern's beautiful sixty-seven-acre Boston campus is within walking distance of the world-renowned Museum of Fine Arts, Symphony Hall, and stylish Newbury Street. The campus is also close to Fenway Park, home of the Boston Red Sox, and the Fens, part of the Emerald Necklace park system.

Courses for adult learners are available at the Main Boston, Downtown Boston, Burlington, and Dedham campuses.

Information for New Students

Open Enrollment

Our open enrollment policy gives students access to all of our courses, regardless of whether or not they are enrolled in a specific program. Our open enrollment policy allows you to enroll in most courses without submitting an admissions application, giving you the opportunity to make sure the program is right for you.

Applying for Admission to a Degree Program

In order to receive a degree, students must apply for formal admission to a degree program. This process consists of simply filling out a form and submitting it with a copy of your high school transcript. It is important to note that in order for students to qualify for financial aid, they must be admitted to a degree program. The admission process must be completed before the start of the term for which financial aid is being sought. To ensure that students are taking the quickest path to degree completion, all students are encouraged to apply for admission to a degree as soon as possible.

Certain degree programs may have additional admissions requirements. Please consult an academic advisor or review the full requirements in the University College *Bulletin* or visit www.ace.neu.edu.

Applications are located at the Office of Academic and Student Affairs or at any branch campus. Applications may also be submitted by mail. Call **617.373.2400** to obtain an application. Students will be notified of their acceptance by mail.

A Course Format that Works for You

Northeastern University offers several formats for our courses to suit the needs of every adult learner.

On campus – Traditional education featuring interaction with your instructor and fellow students

Online – Instructor-led education on your computer via the Internet

Hybrid – Part on campus, part online, and blending the best of both

ACCEL – Earn an associate's degree in two years or a bachelor's degree in four years of part-time study

Career and Academic Advising

Our part-time programs are a distinctive form of higher education, attracting students with specific needs and differing interests. Academic advisors are available to talk with students about everything from career-specific programs to choice of courses, transfer credit, and degree requirements. University College advisors are available Monday-Friday for appointments and on a walk-in basis. Please call **617.373.2400** for an appointment. You can also reach our advisors via e-mail at uc-academic-advising@neu.edu, or at one of our Open Houses which are typically offered throughout the registration period.

For information on all of the career and academic advising services, please visit pages 7-9.

Transfer Credits

Transfer Credit Policy

Students may transfer credit from accredited institutions of higher education when courses completed are applicable to the student's program in University College. The minimum course grade acceptable for transfer credit is C, or 2.000 on a 4.000 scale.

Transfer Credit Procedure

Students who would like to obtain an evaluation of credits earned from another institution should file a Transfer Credit Petition with the Office of Academic and Student Affairs. Write to the registrar of the institution previously attended and request that an official transcript (one bearing that institution's seal) be forwarded to the Office of Academic and Student Affairs, University College, 180 Ryder Hall, Northeastern University, 360 Huntington Avenue, Boston, MA 02115.

Upon receipt of official transcripts and the Petition for Transfer Credit, the Office of Academic and Student Affairs issues an evaluation of all credits as they apply to the student's program in University College. Students should allow at least four weeks for processing transfer credit petitions from the point when all official transcripts and the Transfer Credit Petition have been received.

Academic advisors are available to assist students with the transfer credit procedure. Please call **617.373.2400**.

Information for New Students

Northeastern University is committed to helping you achieve all of your educational goals. We offer several financial aid, scholarship, and payment packages to suit the needs of adult learners.

Financial Aid

The Office of Student Financial Services, located at 139 Richards Hall, offers several types of assistance to University College students. In addition to their regular hours, the office has late hours Monday-Thursday from 4:30-7:00 p.m. For service after 4:30, please come to the main office in 356 Richards Hall. A staff of financial aid professionals is waiting for you to provide expert advice, friendly service, and personalized support for all your financial aid-related business.

All awards are based on financial need. Aid granted from programs sponsored by the federal or state government is dependent upon the amount of funding allocated to Northeastern University. Federal regulations require that students who receive financial aid funds be United States citizens or permanent residents.

Students must be admitted to a degree program in order to be eligible for financial aid.

Payment Options

In addition to financial aid, here are some other options you can consider in order to finance your education:

Tuition Reimbursement

Many companies reimburse the student/employee upon successful completion of courses. In these situations the student is responsible for the payment of the bill at the beginning of the quarter or may select to use the Monthly Payment Option Plan. Tuition may not be left unpaid pending reimbursement by an employer.

In cases where payment is made directly by the employer to the University, the student must provide the Customer Service Center with a purchase order or a statement from an officer of the company certifying that the company will pay the University directly. If there are stipulations associated with the payment agreement, such as a minimum grade level, then the student must either pay the University directly or enroll in the Monthly Payment Plan.

Monthly Payment Plan

Northeastern University offers an interest-free, short-term monthly payment plan beginning each term that is administered through Academic Management Services (AMS). You do not pay interest, only a small enrollment fee. The number of monthly payments varies based on when you enroll. For more information, see page 65. You may also contact AMS at **800.635.0120** or Northeastern's Customer Service Center at **617.373.2270** or e-mail customerservice@neu.edu.

International Student Admissions Deadline

Because international student admissions, transfer credits, and visa paperwork are complex and take time to process, the deadline is October 4, 2003, for attending the winter 2004 term and January 5, 2004, for attending the spring 2004 term.

Career and Academic Advising

University College will help you plan for your professional and educational future. You can take advantage of several different types of personal, educational, and career-planning services. These services include individual and small-group advising opportunities as well as a variety of Career Development Courses and Student Success seminars.

Advising Night: The First Step

Are you starting at University College this winter? Attending an advising night will put you on the right track. You can meet individually with an academic advisor and learn about the many programs and services University College offers to help you reach your educational aspirations. At most events, you can also meet with advisors from Career Services and Financial Aid. The advising night orients new students to the University as a whole and helps students

- Choose courses and register
- Apply for financial aid
- Obtain career and personal advising
- Balance work, school, and family responsibilities

You will also learn how to enroll in a degree program and how to transfer credit from other colleges or universities. Help us to serve your needs by calling early to reserve a space. Please call or e-mail Judith Hammond at **617.373.4290** or ju.hammond@neu.edu. See page 10 for additional details.

November 17, 5:00-7:30 p.m.

Dedham Campus, 370 Common Street

November 19, 5:00-7:30 p.m.

Marlborough Middle School, Agoritsas Drive

December 2, 5:00-7:30 p.m.

Burlington Campus, 145 South Bedford Street

Snow date: December 9

December 4, 5:00-7:30 p.m.

Main Boston Campus, 180 Ryder Hall

Snow date: December 11

Ongoing Academic Advising

When you have questions about

- Course or program selection
- Registration
- Careers
- Transfer credit
- Admission to a degree or certificate
- Senior status
- Graduation

our advisors are here to answer questions and help you succeed. Make an advising appointment at a time and campus convenient for you by calling **617.373.2400**. Advising without an appointment is available at the Main Boston campus Monday-Thursday, noon-7 p.m. and Friday, noon-4 p.m. You can also call or e-mail individual advisors at any time. Call **617.373.2400** or click on www.ace.neu.edu/services.

Consulting with an advisor will help you make the most of your time at University College. You should talk with an advisor

- When you need advice on which course or program to take
- When you enter a degree or certificate program
- When you are close to completing a degree or certificate
- When you are ready to embark on a new direction in your education

Online, Real-Time Advising

The Upcoming Events link at www.ace.neu.edu has information about real-time, interactive discussions with faculty and advisors. Look for Chat University events on our Web site.

Career and Academic Advising

Career Development Courses

University College will offer three for-credit career development courses this winter. **Managing Career Decisions CD 4100**, a three-credit course, will help you manage your career by focusing on decision making, goal setting, and implementing career strategies and educational plans. You will also discuss job campaign, resume preparation, networking, and advanced interviewing techniques. Also available are **Career Decision Making CD 4102** and **Career Planning/Self Marketing CD 4104**. These one-credit courses, each offered on one Saturday, focus on specific topics in career development. Call the Business Programs Office at **617.373.2418** for information and dates.

Career Counseling and Job Search Support

Make sound career decisions and timely career moves by talking with Northeastern University career counselors who specialize in helping adult students make the best choices. A part-time education at University College will allow you to adjust to changes taking place in work settings, the economy, and the labor market. Career counselors will help you clarify career and educational objectives and will offer advice about a career or job change. Career counseling is by appointment in Boston, Dedham, or Burlington and may be arranged by calling **617.373.2430**.

Career Services

As a University College student, you have access to all of the career services of Northeastern University. The Career Resource Center offers the following services:

- Programs, resources, and services designed for adult students and graduates
- A pleasant environment and knowledgeable staff
- Computer stations dedicated to career exploration and online job searches
- Information about careers by major, job search topics, and career-related Web sites

Online Career Services

The Department of Career Services offers the following services and information through their Web site at **www.careerservices.neu.edu**.

- Register for seminars
- Review companies recruiting on campus
- Read about the job opportunities at companies recruiting on campus
- Peruse current job listings to which you can apply directly
- Identify local professional associations
- Link to a vast array of career sites available on the Internet
- Download department handouts and seminar material of events, job fairs, and career information for adults in transition.

Please e-mail Charlotte Lam, associate director of adult and alumni/ae career services, at **c.lam@neu.edu** for more information.

Career and Academic Advising

Placement Services

The Career Services Office, 101 Stearns Hall, Main Boston Campus, offers University College students and graduates a wide variety of career development and placement services including

Job Bank

Current employment opportunities from local, state, national, and international employers reflect all academic areas offered by the University.

Career Resource Library

The library contains business and professional directories, periodicals, books and articles pertaining to employment and job search, and extensive literature on employers.

Career Seminars for Adult Students

Career Services schedules evening programs to help adult students reach their professional goals. Programs for adults include Job Search in Today's Market, Advanced Interviewing Techniques and Salary Negotiations, Personality Type and Career Choice, Skills Assessment for Career Decision Making, and Networking for Job Seekers. Sign up online at www.careerservices.neu.edu.

On-Campus Recruiting

University College students planning to graduate in the 2003-04 academic year are eligible to participate in On-Campus Recruiting during the winter and spring quarters. Representatives from business and industry visit Northeastern each year to conduct preliminary interviews and discuss employment opportunities with eligible seniors. To take part in On-Campus Recruiting, students must attend a workshop on recruiting procedures. Call **617.373.2430** to register for a workshop.

HuskyCareerLink (HCL)

You can view job listings that are submitted directly to Northeastern University or post your resume on HuskyCareerLink (HCL), an online career development program. Before you use HCL for the first time, request an ID number and password by e-mailing c.lam@neu.edu or calling Charlotte Lam at **617.373.2517**.

Counseling and Student Development

The Center for Counseling and Student Development at Northeastern provides a wide variety of services free of charge to all part-time students. Personal counseling provides an opportunity for you to discuss with a counselor such concerns as adjusting to being a student (again or for the first time), getting along with people, feeling anxious or depressed, and coping with problems related to family, job, and other life issues.

The Center also administers CLEP and DANTES examinations, many of which are accepted by University College. There is a fee for taking CLEP and DANTES examinations.

The Center for Counseling and Student Development is located at 302 Ell Hall. You can reach them at **617.373.2142**.

Thinking About a New Career?

Talk to an advisor about:

- Transfer credit
- Completing your degree
- Career advising
- Financial aid options

Special Events

Open Houses for New and Continuing Students

To kick off the winter term, University College offers four important one-night events. Whether or not you are new to University College, these events are worth attending. They provide the information you need to make the right decisions about your education and your career. Mark your calendars!

November 17, 5:00-7:30 p.m.

Dedham Campus, 370 Common Street

November 19, 5:00-7:30 p.m.

Marlborough Middle School, Agoritsas Drive

December 2, 5:00-7:30 p.m.

Burlington Campus, 145 South Bedford Street

Snow date: December 9

December 4, 5:00-7:30 p.m.

Main Boston Campus, 180 Ryder Hall

Snow date: December 11

Offered by University College's Office of Academic and Student Affairs, Open House/Transfer and Career Advising Nights are your opportunity to meet one on one with a University College advisor to discuss both academic issues and career concerns. At University College, we know that your career is a top priority, and that's why our academic advisors are also career experts.

Please call or e-mail Judith Hammond at **617.373.4290**, ju.hammond@neu.edu, with the campus location and time you would like to attend. Bring along your official or unofficial transcripts and your resume (optional). You can review your transfer credit, check your status report, discuss your career goals and program options, and select and register for your classes.

Hybrid Course Demonstrations

Looking for Flexibility and Convenience?

Are you looking to add flexibility and convenience to your busy schedule? Hybrid courses are just for you. Cut your commute time to class in half or more! All you need is access to the Internet and just a few trips to campus. Join us at one of two demonstrations and see how easily Blackboard, the Internet-based software program, works for you in the classroom and at home.

Tuesday, December 2, 6:00-6:30 p.m., Burlington Campus

Thursday, December 4, 6:00-6:30 p.m., Main Boston Campus

To reserve a spot at one of these events, please call **617.373.2418** or e-mail us at uc-business@neu.edu.

Please call five working days in advance of the demonstration you wish to attend so we can arrange for an interpreter, **617.373.2400** or **TTY 617.373.2825**.

Information Technology Speaker Series

Back by Popular Demand!

Time: 6:00-7:30 p.m.

Date: Thursday, November 20

Location: Burlington Campus

Come hear four IT professionals discuss the current situation in the information technology field in this recessionary economy. Hear how they have survived the current technology downturn. Panelists will address building a diversified portfolio, lifelong learning, and skill sets needed to enhance marketability. You can't afford to miss this evening. For more information, contact the Information Technology office at **617.373.2499** or e-mail m.ridge@neu.edu.

Please call five working days in advance so we can arrange for an interpreter, **617.373.2400** or **TTY 617.373.2825**.

Special Events

Business Administration Career Night

Fast Track Programs to Jumpstart Your Career

Thursday, November 13, 6:00-7:00 p.m., Main Boston Campus

We invite all prospective and current University College students to this first in a series of Business Administration Career Nights. We'll help you take a look at our various credit and noncredit professional development programs and how they can relate to your career in Business Administration.

Among our many programs, some of which you can complete in as little as one quarter, are the following:

Paralegal Certificate Program* (either credit or noncredit – you choose.)

This intensive program, with a unique team-teaching approach, will provide you with the skills and knowledge necessary to move into a new exciting career as a paralegal. *Twelve weeks.*

*Application required

Project Management

Earn a certificate by completing five, two-day seminars. Seminars include Project Planning, Organization, and Control; Estimation and Cost Management; Risk Analysis and Management; Project Procurement and Contract Management; Project Leadership; and MS Project. *Can be completed in as little as three months.*

High Performance Management

Like a mini-MBA for nonbusiness graduates with management responsibilities, middle managers, or anyone assuming a new management role, this certificate will provide you with up-to-date skills to manage a business in today's fast-paced global marketplace. *Thirteen weeks.*

Supervisor Development

This program is designed to provide new supervisors and existing managers with the essential management skills and tools needed to be successful on the job. *Twelve weeks.*

High Performance Business Communication

This program will provide you with the oral and written communication skills required for success in today's business world. *Nine weeks.*

Massachusetts Salesperson Exam Preparation

An introduction to the basic principles and terminology of real estate business practices including real estate appraisal, finance, development, management, and investment. Upon successful completion of this program, students earn six q.h. of credit and may take the Massachusetts salesperson's examination.

Twelve weeks.

SHRM® Learning System

In cooperation with the Society of Human Resources Management (SHRM) this certificate serves as a preparation for the Professional in Human Resources Management (PHR) and Senior Professional in Human Resources (SPHR) certification exams administered by the Human Resources Certification Institute (HRCI). *Ten weeks.*

Certified Financial Planner™

In partnership with the College for Financial Planning of Denver, Colorado, this course is a comprehensive program to prepare you for the Final CFP™ Certification Exam. *Complete the educational requirements in as little as six months.*

Meeting and Event Planning Certificate

Gain the skills and knowledge you need to build your career in the convention, meeting, special events, and trade show industries. Courses include Program Design, Onsite Conference Management, Site Selection, Contract Management, Budgeting and Financial Management, and AV Technology. *Complete the educational requirements in as little as six months.*

Join us on Thursday, November 13, from 6:00-7:00 p.m. at the Main Boston campus for this exciting event. To reserve a spot, please call **617.373.2418** or e-mail us at **uc-business@neu.edu**.

Please call by November 7 so we can arrange for an interpreter, **617.373.2400** or **TTY 617.373.2825**.

Information on New Curriculum Changes

University College Course Number Changes For 2003-2004

University College has put in place revised curricula for virtually all our undergraduate degree and certificate programs, keeping them in step with the latest industry developments. These revisions implemented for the 2003-2004 academic year have resulted in many existing courses receiving new prefixes and/or numbers, particularly in the information technology and biotechnology areas. Shown below is a handy chart with the new prefixes/numbers and titles of these courses, along with their former numbers and titles. If you cannot find the MIS or BIO course you are looking for in the current University College *Schedule*, please check below to see if the course number has changed.

Former		New	
Number	Course Title	Number	Course Title
MTH4520	Critical Thinking for Research	BIO4305	Critical Thinking for Research

Special Format Courses for Business Administration

Complete a Course in Three Days or Three Weekends!

Our Special Format scheduling, which allows students to complete an entire three- or six-quarter-hour course in three days or three weekends, has become so popular, we've decided to adapt more courses to this schedule.

Please note: all classes are held from 9:00 a.m. to 4:00 p.m. Due to the unique format of these courses, no late entry is permitted. Students must be present at 9:00 a.m. on the first class meeting, and students must attend every class session in order to receive credit for these courses. For more information about this exciting learning option, call **617.373.2419** or e-mail **uc-business@neu.edu**.

Business Law 1 BL 4101

Downtown**, Saturdays, 1/10, 1/24, 2/7

Employment Law BL 4111

Downtown**, Saturdays, 2/21, 3/6, 3/20

Personal Finance FI 4101

Downtown**, Saturdays, 1/10, 1/24, 2/7

Investment Principles FI 4310

Downtown**, Saturdays, 2/21, 3/6, 3/20

Organizational Behavior HRM 4301

Main Boston*, Saturdays, 1/10, 1/24, 2/7

Dynamics of Business 1 MGT 4101

Burlington, Saturdays, 1/10, 1/24, 2/7

Dynamics of Business 2 MGT 4102

Burlington, Saturdays, 2/21, 3/6, 3/20

Advertising Management MKT 4310

Dedham, Saturdays, 1/10, 1/24, 2/7

*Parking is available at the Renaissance Garage at the Main Boston Campus for a Saturday rate of \$1.00 with a current student ID card.

**Parking is available at the Meridian Hotel, conveniently located near the Downtown Boston Campus, for a Saturday rate of \$4.00 with validation from our front desk.

Daytime Certificate in Human Resources Management

This winter, University College's popular undergraduate Certificate in Human Resources Management will be offered in a daytime format at the Burlington Campus. Classes will be held in the late morning and early afternoon, one day a week, and the entire certificate can be completed in just one year of study. Taught by industry professionals and faculty skilled in the most current HR issues, this is an opportunity to prepare for an entry-level position in a field with great potential. For more information, visit **www.ace.neu.edu**.

Winter 2004

Human Resource Management HRM 4310

Monday, 9:00-11:10 a.m.

Techniques of Employee Selection HRM 4320

Monday, 11:20 a.m.-1:30 p.m.

Spring 2004

Employment Law BL 4111

Monday, 9:00-11:10 a.m.

Compensation Management HRM 4350

Monday, 11:20 a.m.-1:30 p.m.

Summer 2004

Training and Development HRM 4325

All classes meet for 2 hours 10 minutes with the exception of MGT 4452 and first-half (A) or second-half (B) which meet for 4 hours 20 minutes.

Topics Featured This Winter in Liberal Arts

Special Topics in Communication CMN 4252

Anthony Buglio on "Gender Communication"

Main Boston, Saturdays,

9:00 a.m.-1:30 p.m. (First Half Intensive)

This six-week course provides students with an understanding of how gender influences verbal and nonverbal communication.

Emphasis is on enhancing communication competency at work and in relationships.

Topics in Literature ENG 4600

Joseph DeRoche on "Spirituality in Literature"

Main Boston, Wednesdays,

5:50-8:00 p.m.

This course examines major works of literature from the Bible to contemporary writing that have as their themes the spiritual quest. From Judaism, Buddhism, Christianity, and aboriginal visions in prose and poetry, the class will examine and discuss works which question the relationship of humanity to the eternal and supernatural. The assumption of this course is that the spiritual emotions in us are as valid and necessary as the psychological and social. The works we will examine come from many traditions and from several viewpoints. This course will be an exploration of vision and quest, not of dogma and certainty.

Topics in Liberal Learning INT 4300

Herbert Patchell on "Islam and Christianity: Conflicting Revelations"

Main Boston, Tuesdays,

5:50-8:00 p.m.

In 2000, more than one-third of the global population was Muslim or Christian, and that number will increase to nearly half of humanity by 2025. Islam, Christianity, and Judaism are called the revelatory religions because their faith systems are based on the certainty that a divine being has communicated the truth to them. The world can be a small place when two religions, each claiming a different truth, represent half of humanity. This hybrid course will explore the historical, political, theological, and philosophical differences between Islam and Christianity. We will study contemporary events and current scholarship to discover the main sources of the ongoing conflict between these two monotheistic religions.

Personal and Professional Enrichment Courses

We offer a number of courses to help you improve your presentation and communication skills.

Course #	Title	Key #	Campus	Days	Times	Start	Term

Emergency Medical Services

EMT/Basic

Northeastern University is known around the world as having one of the best EMT-training programs. The EMT/Basic course is designed for students who wish to become certified EMTs, but it is also open to people who want to be prepared for emergencies. The course covers EMT essentials, such as the evaluation and management of victims suffering from cardiopulmonary arrest, severe bleeding, shock, bone fractures, stroke, burns, or poisoning. Students who successfully complete the course receive nine quarter hours of credit and become eligible to take the state EMT certification exam. For more information, visit www.ems.neu.edu. Courses start the week of January 5.

DET-Approved Paramedic Technology Certificate Program

Certified EMTs who want to advance their skills should consider our comprehensive Paramedic Technology Certificate Program. This one-year program provides in-depth coverage of advanced life support theory and techniques through 24 weeks of lecture/labs, followed by 24 weeks of clinical rotations and an intensive field internship. Call **781.238.8450** for an application packet. Programs start in January and July. Students who successfully complete the Paramedic Technology Certificate Program may continue on to earn an associate's degree in Paramedic Technology.

Prospective students can learn more about Northeastern's EMS programs by connecting online to www.ems.neu.edu or by calling **781.238.8450** for a brochure.

International Students

Looking for a full-time day program? Our ELC day program offers the I-20 that allows you to get your F-1 visa.

Visit www.ace.neu.edu/elc for more information.

English Language Center

Northeastern University's English Language Center offers a variety of programs to international students, professionals, and local-area residents interested in improving their English.

- Intensive English Language Program
- Pre-MBA Program
- Business Case Program
- Custom-designed programs for groups

Advanced-level students can take a course at University College and also receive special consideration for application to certificate programs. For more information about any of the programs, call the English Language Center at **617.373.2455** or visit www.neu.edu/elc.

Intensive Evening Classes Scheduled

These classes are specifically designed to meet the needs of Boston area residents. Offered at our main Boston campus, these classes enable students to learn English by attending intensive classes two nights a week.

- English as a Second Language (Beginning through Advanced)
 - TOEFL Preparation (Test of English as a Second Language)
 - English for Professionals
- Improve your pronunciation, vocabulary, listening ability, and job performance

Winter 2004 classes start January 5. Please call **617.373.2455** to register or to request additional information.

Health Professions and Sciences Programs

The Earth: A New Perspective

From its craggy shorelines to its unique weather patterns, New England is the perfect setting for studying the earth sciences. University College has polished the content and updated the titles of many of our Earth Science (ESC) courses, and we invite you to visit the Web site to view this winter's exciting selection, www.ace.neu.edu.

Mathematics

Math is so much more than numbers. It is sequences and matrixes, relations and functions. Where some see the simplicity, others see the complexity – especially when Math is used in relationship to the Health Professions and Sciences. University College has a number of new titles running this winter. Visit www.ace.neu.edu.

Three New Hybrid Courses

Health Planning and Regulation HMG 4325

Mondays beginning January 5,
5:15-8:00 p.m., Boston

In this hybrid course, students will examine the practical considerations in the implementation of health programs. They will study law and policy issues for planning, management, and evaluation of health programs. Discussion will focus on the effective assessment of health needs and resource allocation, taking into consideration the current political and economic environment of healthcare.

Healthcare Operations Management HMG 4440

Wednesdays beginning January 7,
5:50-8:00 p.m., Boston

This course will focus on applications-oriented case studies relating to operations management planning, as well as restructuring and control problems common to hospitals and other health services organizations.

Healthcare Marketing and Communication 2 HMG 4446

Thursdays beginning January 8,
8:05-10:15 p.m., Boston

The focus of this course will be to examine marketing in health services organizations. Special attention will be paid to the connections between marketing and strategic management.

New and Redesigned Courses

Topics in Environmental Science ESC 4252 (Redesigned)

Saturdays, 11:20 a.m.-1:30 p.m., Boston

Students will apply the principles of environmental science to current topics of concern. Examples include protection of special biomes and resources, hazardous waste management, energy production and resources, land-use issues, etc. Emphasis will be placed on the understanding of specific problems and the solutions proposed to solve or mitigate them.

Men's Health Issues HSC 4318 (New!)

Thursdays, 5:50-8:00 p.m., Boston

This course addresses health conditions unique to males from both a physical and a psychological perspective. Factors that affect life expectancy, athletics and sports, as well as the influences of the men's movement on increased awareness of health issues will also be studied.

Life Cycle Nutrition HSC 4600 (Redesigned)

Thursdays, 8:05-10:15 p.m., Boston

This course covers topics related to nutrition throughout the human life cycle. Students will study nutritional needs related to pregnancy, infants, early childhood development, adolescents, and older adults. Nutrition and longevity, and nutrient-drug interactions will also be reviewed.

New Rapid Finish Course Schedules

Number	Title	Days	Start Date

Information Technology Accelerated Format Programs

DET-Approved Database Design and Administration Certificate – 12-Week (Day) Program

Program cost: \$5,468 for full program

Campus: Burlington Campus,
145 South Bedford Street

Time: 12:00 noon to 5:00 p.m.

Companies use databases to manage customer files and track orders and inventories. Marketers rely on databases to determine potential customers; hospitals use databases to store information on patients. Chances are, you use a database to track expenses or manage lists of family, friend, and business addresses. University College offers a variety of hands-on database programs that utilize different software packages. Students will learn to use Microsoft Access software in IT 4236 and IT 4342, SQL in IT 4346, Microsoft Visual Basic in IT 4243, Active Server Pages in IT 4353, and Oracle in MIS 4388. In MIS 4305, students learn to analyze an existing system, to determine system requirements, to design and implement a new system, and to query and manipulate existing databases. For detailed course descriptions, visit www.ace.neu.edu/it.

Key Number	Course #	Course Name	Date	Day	Cost
08654	IT 4236	Advanced PC Software	1/6-1/27	Tuesday	\$696
09688	IT 4353	Active Server Pages	1/30-2/20	Friday	\$696
08660	IT 4342	Advanced Database	2/3-2/24	Tuesday	\$696
08681	MIS 4305	Structured Systems Analysis and Design (Intensive)	1/7-2/25	Wednesday	\$1,292
08719	MIS 4388	Database Administration	2/27-3/19	Friday	\$696
08675	IT 4346	SQL: Introduction to Structured Query Language	3/2-3/23	Tuesday	\$696
09672	IT 4243	Visual Basic Programming	3/3-3/24	Wednesday	\$696

Computer Systems Specialist Program (CSSP)

Days and Times: Fridays, 6:00-10:00 p.m. and Saturdays, 9:00 a.m.-5:30 p.m.

Location: Main Boston Campus

Start Date: Friday, April 2

Admission Requirements:

- A statement of purpose
- Official copy of high school transcript or most recent college transcript

Program Cost: \$9,495 for full program

What You Will Learn:

- Understand the structure and logic of writing programs
- Understand and become conversant in computer concepts and terminology
- Develop communication and interpersonal skills
- Develop literacy in commercial applications for word processing, spreadsheets, databases, and presentations
- Gain proficiency in structured programming languages that support legacy systems
- Become proficient in graphical and object-oriented languages
- Learn to research current events in the information technology industry
- Understand the logic of writing computer programs and the theory of system design
- Apply technical skills with the presentation of a computer-based solution in a setting that mirrors a real-world environment

Who Should Attend:

- Administrators
- Office support staff
- Managers
- Small business owners
- Those who want to learn how to plan, design, implement, and maintain desktop databases
- Individuals who want to learn how to query and manipulate existing databases
- Those who want to be able to connect a database to a Web site

Who Should Attend:

- Individuals looking to augment their business skills with knowledge of information systems
- Individuals looking for entry-level positions working with information systems technology in any industry – financial services, health, or education, to name a few

Graduate Certificate Programs

Need an application?

Call 617.373.2425,
visit www.ace.neu.edu/grad,
or e-mail uc-graduate-program@neu.edu.

Enroll in a part-time Graduate Certificate Program at University College and open an exciting new chapter in your career. You can earn your certificate in as little as nine months by taking as few as four courses.

Accessible Web Design

Are you maximizing the ROI from your Web initiatives? Is your site written and designed with every possible user in mind? Over 50 million disabled people in the U.S. cannot use traditional Web sites. In addition, people with situational limitations like old browsers or tiny screens on portable devices need universally designed accessible Web sites. Can any organization afford to walk away from this many potential customers? Can any Web professional afford to ignore the latest skills to address this growing need?

Bioinformatics

One of the fastest growing segments in the biotech industry, bioinformatics is concerned with the use of computing for data interpretation and management in a wide array of biological research areas, such as genomics, transcriptomics, proteomics, genetics, and evolution. Our Graduate Certificate Program surveys the rapidly expanding role of bioinformatics from high-tech data generation and analysis to biological discovery and new drug development. This program allows you to move from a uni-discipline biological, chemical, or computer science background to this multi-discipline emerging art and science.

Biopharmaceutical QA/Domestic Regulatory Affairs

As biotechnology, pharmaceutical, and medical device companies rush to obtain federal approval of more and more products, demand is growing for qualified regulatory affairs professionals. Training in regulatory affairs is a necessity for both the scientists developing new products and for the legal experts guiding them through the FDA approval process. Whether you are currently a regulatory affairs practitioner, are looking to enter the field, or are working on an R & D team developing a product requiring FDA approval, you need to be versed in this critical area of domestic regulatory affairs.

Clinical Trial Design and Project Management

As the race to bring new biotechnology, medical device, and pharmaceutical products to market intensifies, the demand is growing for qualified professionals who know how to optimize the design and management of clinical trials. These mid-career professionals need to master emerging technologies to allow for a new generation of clinical trial designs that focus on safety and the rights of the human participants while preserving the integrity of clinical data critical to the future approval of the product.

Forensic Accounting

Forensic Accounting has emerged as a key profession in combating financial abuse. Forensic accountants understand how and why occupational fraud is committed, how it can be deterred, how it can be detected, and how allegations of fraud should be investigated and resolved. This certificate will allow you to learn the principles and practices needed for today's complex accounting environment.

Human Resources Management

In today's organizations, Human Resources responsibilities have become increasingly more complex. Consulting on company re-organization, developing effective benefits strategies, and addressing the need for a highly skilled and motivated workforce are all a part of your job. This Graduate Certificate Program will give you the knowledge you need to excel in today's turbulent and dynamic human resources environment.

Information Resources Management

Technological advances in business processes and capabilities are the key to competitive advantage in today's market. The most successful companies will be those that properly invest in, deploy, and manage their information resources technology. As pressure increases to squeeze a greater ROI from new and existing technology investments, businesses need technical and management professionals with the education required to properly manage and develop their information resources. Topics include emerging technologies, network security architecture, database management tools, and the strategic value of integrating systems across the enterprise.

Graduate Certificate Programs

Need an application?

Call 617.373.2425,
visit www.ace.neu.edu/grad,
or e-mail uc-graduate-program@neu.edu.

Intellectual Property

Virtually no area of business today is free from intellectual property concerns. Today's fastest growing industries, including biotechnology, computer software, and pharmaceuticals, depend on protecting their intellectual property for their continued existence. Organizations cannot afford to rely exclusively on their legal departments for protection. All professionals, from scientists to engineers and from creative artists to computer programmers, must learn the proper way to use and protect intellectual property.

Marketing Technologies

Traditional marketing techniques are fading away in favor of newer, data-driven marketing technologies. As a marketing professional, you need to know the latest tools of the trade and how to use them. Gain the knowledge to leverage the powerful technologies that will enable your company to gain greater marketing efficiencies and reach your desired audiences.

Network Security Management

Network security is now of the utmost concern for organizations, their customers, employers, and partners as threats of information manipulation and infrastructure failures increase and network environments become more vulnerable. Our Graduate Certificate Program in Network Security Management will help information network managers stay up to date in crucial areas such as access management, authentication, encryption, intrusion detection, and firewalls.

Nonprofit Management

(Both on-campus and online formats available)

As a nonprofit professional, you are passionate and committed to your cause. However, chances are you may be overwhelmed by the responsibilities you have gained due to cutbacks in funding, new tax laws, etc. Where once you were able to do the job that matched your specific skill set, now you must be a jack-of-all-trades and juggle a variety of responsibilities. Designed to help mid-career individuals meet the challenge of doing more with fewer resources, this program will allow you to reap the rewards of a career in nonprofit management. Our classroom and online offerings provide a collaborative learning environment where you will learn from the real-world success of your peers and your instructors.

Strategic Internet Management

Do you have the skills to make the Web an integral part of your business plan? Companies want managers and key executives with the skills to build business strategies around the Internet to gain a competitive edge. It is time for you to rise to the challenge and take a leadership role in managing and shaping your company's Internet capabilities. You will learn to manage Internet projects, capitalize on Web opportunities, and broaden your reach to global markets, suppliers, customers, and business partners.

Vaccines: Technologies, Trends, and Bioterrorism (Online format only)

Vaccines have become the fastest growing segment of the pharmaceutical industry, with well over 1,000 vaccines in research and development worldwide. Frequent global travel, the growing human resistance to current vaccines, and the increase in threats from bioterrorism represent an escalating source of new diseases and a resurgence of diseases that were easily controlled in the past. Course topics range from an historic view of vaccines to development of new products and new drug delivery methods.

Winter 2004 classes start January 5.

or e-mail uc-graduate-program@neu.edu.**

Professional Development Programs

See the schedule beginning on page 58 for dates and times.

Why earn a Certificate of Professional Achievement? The reasons are endless! Our professional development programs allow you to invest in your future, helping you to achieve the financial and professional benefits of higher education. We'll help you attain the next milestone in your professional and educational master plan.

Management Programs

Building Design and Management – Northeastern's Building Design and Management Program offers instruction in building and construction technology, construction project management, facilities management, HVAC systems design, and licensing preparation. For an informative brochure and application procedures, call **781.320.8025** or visit www.ace.neu.edu/bdm.

Project Management – Our project management program is geared for today's business professional who needs to stay on top of the latest technological advances and business climates. To learn more, call **617.373.2418** or visit www.ace.neu.edu/pm.

Fundamentals of Human Resources Management and SHRM® Learning System – These strategic programs are designed to prepare HR professionals for career advancement opportunities, as well as the PHR/SPHR exams. For more information, call **617.373.2418** or visit www.ace.neu.edu/shrm.

Supervisor Development – This 12-week certificate program is designed to provide new supervisors and existing managers with the essential management skills and tools needed to be successful on the job. For information, call **617.373.2418** or visit www.ace.neu.edu/supervisor.

High Performance Management – It takes up-to-date skills to manage a business in today's fast-paced global marketplace. This 13-week program focuses on such areas as organizational behavior, leadership, and strategic planning. To learn more, call **617.373.2418** or visit www.ace.neu.edu/hpm.

High Performance Business Communication – Starting this spring, this nine-week program will provide you with the oral and written communication skills required for success in today's business world. To learn more, call **617.373.2416** or visit www.ace.neu.edu/hpbc.

Finance and Banking

Certified Financial Planner™ – Northeastern University, in partnership with the College for Financial Planning of Denver, Colorado, offers a comprehensive program to prepare you for the final CFP™ Certification Exam. For a program brochure and schedule, call **617.373.2418** or visit www.ace.neu.edu/cfp.

Chartered Financial Analyst® – University College's CFA® program is designed to help you attack the volume of difficult material required for CFA candidates. For more information, call the Business Administration Programs office at **617.373.2418** or visit www.ace.neu.edu/cfa.

Become a Manager

As a working professional, you know that education is the key to moving up the career ladder. The first rung in that ladder is the move from "being managed" to "becoming the manager." Here are a few University College management programs that can help you in your rise to the top.

Sharpen Your Financial Skills

As the baby boom generation prepares for retirement, as tax laws grow increasingly complex, and as more investment options become available, more people seek the services of qualified financial planners and analysts. University College offers high-level programs that lead to prestigious designations in the financial services profession.

See the schedule beginning on page 58 for dates and times.

Professional Development Programs

Learn Industry Skills

University College offers programs that are highly targeted to specific career paths. They provide the training you need to get started in a new job in a relatively short time frame and can serve as the starting point for more training once you are established in a career.

Industry-Specific Skills

Information Technology Programs – If you already have a degree and/or already work in the computer technology field, then Northeastern's famed state-of-the-art IT programs will help keep you abreast of the ever-changing high-tech industry. For more information and an IT catalog, call **617.373.2499** or visit www.ace.neu.edu/it.

Paralegal Professional Program – Northeastern's Paralegal Certificate Program is an intensive 12-week course designed for those who want exposure to the pragmatic aspects of the paralegal profession. For program and application information, call **617.373.2418** or visit www.ace.neu.edu/paralegal.

Meeting and Event Planning – This certificate program will prepare you to meet the challenges of planning events ranging from executive meetings to full-scale conventions. To learn more about this dynamic offering, call **617.373.2418** or visit www.ace.neu.edu/meeting.

Legal Nurse Consulting – This intensive, 105-hour program is intended for experienced nurses who need the legal skills and background to work as legal nurse consultants. Topics include legal and medical research, the litigation process, and legal theory. For more details, call **617.373.2418** or visit www.ace.neu.edu/lnc.

Payroll Administration Program – Adult and Continuing Education offers a unique professional development program that prepares participants for the Certified Payroll Professional (CPP) examination. Using APA's The Payroll Source, this 54-hour course covers basic payroll topics such as wages, taxes, legal issues, and accounting principles. For information call **617.373.2418** or visit www.ace.neu.edu/payroll.

Fast-Track Your Part-time Degree

ACCEL Programs

University College's ACCEL program is your fast track to a part-time degree. The ACCEL option is available for the undergraduate degree programs in Management, Management Information Systems, E-Commerce, Liberal Arts with a Business Minor, Criminal Justice, Health Management, and Health Science.

Students are given a grid at the beginning of their study and need to stick to the schedules in order to reach the graduation finish line in four years. It is the fastest way to add a Northeastern University degree to your resume. Students with associate's degrees or other transfer credits can finish even faster.

For more information on this unique program, visit www.ace.neu.edu/accel.

ACCEL courses are offered primarily on Friday evenings and Saturdays, except in the summer when classes take place Monday through Thursday evenings at the Burlington and Main Boston campuses. The Dedham and Downtown Management ACCEL courses meet on Monday and Thursday evenings throughout the year.

See the ACCEL schedule grids on the following pages for more information.

Other Part-time Programs of Interest

The Lowell Institute School (LIS) at Northeastern University

How to Apply

The Lowell Institute School has an open enrollment policy. Formal application for admission, entrance examinations, College Board tests, and letters of recommendation are not required. All you have to do to get started is register for a course. As long as you have the proper prerequisites or their equivalent, you can register for any LIS courses. You can obtain scheduling, course descriptions, and registration pricing information at www.coe.neu.edu/lis, by calling **617.373.2500**, or e-mailing lis-info@coe.neu.edu.

The Lowell Institute School (LIS) is the part-time division of Northeastern University's School of Engineering Technology. LIS courses feature a balanced mix of theory and practice, and their programs are continually reviewed and revised to meet the needs of today's ever-changing, technology-driven marketplace. Some students take individual courses to meet specific career objectives; others pursue certificates or degrees.

What Is Engineering Technology?

Engineering Technology is the application of engineering principles and modern technology to help solve or prevent technical problems. LIS teaches hands-on technical skills and scientific and engineering principles relevant to the student's chosen field. Engineering technologists work closely with engineers in coordinating people, material, and machinery to achieve particular project goals. They are often responsible for design and development.

University College Students Who Need to Enroll in Lowell Institute School Courses

In addition to offering several physics and mathematics courses that fulfill the requirements for certain University College and pre-med courses, LIS offers open electives that may be of interest to UC students.

Please note that as of fall 2003, LIS began operating on a semester calendar that has different credit values, tuition rates, and start/end dates from the UC quarters. Students taking UC and LIS courses simultaneously will need to attend carefully to their calendars.

The 2003-2004 tuition rate for LIS courses is \$310 per semester hour. The spring 2004 semester for LIS begins on January 5, 2004 and ends on April 26, 2004. The Summer 1 2004 semester (first half of the summer semester) for LIS begins on May 3, 2004, and ends on June 22, 2004. The Summer 2 2004 semester (second half of the summer semester) begins on June 28, 2004, and ends on August 17, 2004. The full summer 2004 semester begins on May 3, 2004, and ends on August 12, 2004.

Financial Aid Advisory

Any University College student who is receiving financial aid and wants to register for a Lowell Institute School course **MUST** meet with a financial aid counselor in the Office of Student Financial Services, 139 Richards Hall. If you do not do this, you could jeopardize your financial aid eligibility and status.

University College students who need to take a Lowell Institute School course should contact the LIS office (**617.373.2500**) for a current schedule.

UC students should register through the Lowell Institute School for any LIS courses. You should not use a UC registration form to sign up for LIS courses. Any LIS course you take will appear on an LIS transcript initially. After the course is over, you should file a transfer credit petition with the UC Office of Academic and Student Affairs (180 Ryder Hall) to make arrangements for your LIS coursework to be transferred to University College. The course will be posted to your UC transcript in quarter hours, and the grade will be computed as part of your UC grade point average.

Other Part-time Programs of Interest

Network Northeastern

Network Northeastern broadcasts live credit and professional development courses to Boston-area corporate sites and to the Burlington and Dedham campuses. Offerings range from noncredit seminars to a complete master's degree program in engineering. Students may also take these courses via videotape. For more information, visit www.nnu.neu.edu or call **617.373.5620** for a catalog.

Corporate Education Services

Do you want to bring any of the successful programs in this *Schedule Guide* on site to your company to save time and travel? Northeastern University can provide a customized education program to meet your company's specific needs. To discuss your on-site training needs, call **617.373.3846** or e-mail uc-corporate@neu.edu.

Northeastern University Takes Learning Beyond the Classroom

For many adult students, committing to a traditional classroom experience – even once a week – is virtually impossible. As technology has globalized our society and forged new methods of communication, Northeastern University embraced that technology and adopted it to education and training. Today, Northeastern University's Network Northeastern and Northeastern University OnLine teach students outside of the classroom and far beyond the city of Boston.

Innovative and Convenient Course Formats

Online Courses from Northeastern University

Northeastern University OnLine (NUOL) is the ideal way to balance your educational goals with other obligations at work and home. NUOL provides a growing selection of graduate, undergraduate, and professional development courses in a convenient online format.

NUOL offers courses in many disciplines, including Biosciences, Business Administration, Information Technology, Health and Science, Technical Communications, and new to NUOL this year, our popular graduate certificates in Nonprofit Management and Vaccines: Technologies, Trends, and Bioterrorism.

All courses take place during the regular quarter term calendar and offer extensive interaction with fellow students and your instructor, including threaded discussions, e-mail correspondence, and Web-delivered quizzes and exams. Course objectives and outcomes are the same as for traditional classroom sections. Online courses are identified in the Campus and Notes columns of the schedules. For information about online registration, visit www.nuol.edu.

Hybrid Course Demonstrations

Are you looking to add flexibility and convenience to your busy schedule? Hybrid courses are just for you. Join us at one of two demonstrations and see how easily Blackboard, the Internet-based software program, works for you in the classroom and at home. See page 10 for further details.

**Tuesday, December 2,
6:00-6:30 p.m.,
Burlington Campus**

**Thursday, December 4,
6:00-6:30 p.m.,
Main Boston Campus**

Hybrid Courses

University College hybrid courses cut the on-site classroom time needed for a course by 50 percent or more. A wide range of courses in this format allows you to spend extra time at home and yet still work toward degree or certificate requirements. Hybrid courses begin and end with the normal term calendar.

Students in hybrid courses typically meet the first two weeks on campus. They get to know the teacher and other students. During these weeks, students learn to use the computer program Blackboard, and the instructor launches the course. Through Blackboard, students retrieve and submit assignments and have online discussions.

Students may return to the classroom for midterm and final exams, for special projects, or for other reasons as determined by the instructor. Otherwise, coursework is completed on your own computer.

Does the idea of hybrid courses sound interesting to you? These courses are popular, so sign up early! Hybrid courses are identified in the Notes column of the schedule.

Register for Hybrids with myNEU Portal

To access Blackboard, you need to use your myNEU user account. If you do not have an account, you can obtain a myNEU username and password at myNEU.neu.edu. If assistance is needed, visit the InfoCommons Help Desk at 184 Snell Library.

When you officially enroll in a hybrid course with the Registrar, your name automatically feeds into the Blackboard system. It is no longer necessary to self-enroll separately on Blackboard. Your name will appear on the proper class roster approximately one business day after registration. We urge you to register for hybrid sections before the term begins.

ACCEL Programs

ACCEL programs in seven different majors can help speed you toward your quest for an associate's or bachelor's degree. Whether it's Management, Health Science, Health Management, E-Commerce, Management Information Systems, Criminal Justice, or Liberal Arts with a Business Minor, Northeastern University's Adult and Continuing Education Division has the program you've been looking for. For details and program grids, see pages 23-27.

For more information or to register: www.ace.neu.edu or 617.373.2400

Course Schedules

Choose the Program You Want

Northeastern University will help you meet life's situations with a schedule that fits your life. You deal with a job, family responsibilities, professional development requirements, and other parts of the working adult's life. Northeastern University is your partner in achieving success both professionally and personally. We will offer you the kind of education that works for you on a schedule that makes sense for your life.

- **Associate's Degree Programs**
- **Bachelor's Degree Programs**
- **Certificate Programs for College Credit**
- **Professional Development Programs**
- **Graduate Certificates**

Then Choose the Delivery Format That Works Best for You

Regardless of the format (traditional classroom, accelerated, hybrid, or online), you can be assured that the education is the same. Courses have the same goals or outcomes and assessment tools. Fit the delivery style to your learning style or employ different styles according to the subject matter. Study in a new format when you find that the topic is of great interest of you. For example, if you know that you understand the basics of organizational behavior because you manage people each day, try taking this course in a hybrid format. If you know that you learn more confidently when you have weekly classroom lectures and activities, use the traditional on-campus format for subjects that are unfamiliar to you. If you are self-disciplined, try an online course.

- **On campus**
Traditional education featuring face-to-face interaction with instructor and fellow students
- **Online**
Instructor-led education on your computer via the Internet
- **Hybrid**
Part on campus, part online, and blending the best of both
- **ACCEL**
Your quickest way to a part-time associate's or bachelor's degree

Together, We Can Prevent Canceled Courses!

We know that there are few things more frustrating than having your course canceled. That is why we are making some important changes to help ensure that the course you want runs. To decrease the number of canceled courses, we have reduced the number of courses being offered. Additionally, to drastically reduce the number of course that have to be canceled after the first night of class, we have also eliminated our "hold" policy. This means that when we do have to cancel courses due to insufficient enrollment, we will do it as early as possible to give you the chance to find another course. What can you do to help? Register early. To help ensure your spot in a course and to help ensure that the courses you want run, register by December 16. Anyone who registers by December 16 will receive a course confirmation in the mail. **Register early to ensure your course will run in the winter 2004 quarter!**

We want you to find the courses that fit your requirements.

If you have questions about using this *Schedule Guide*, please call us at **617.373.2400**; **TTY 617.373.2825**.

Course schedules are divided into the following areas:

Undergraduate Degree and Certificate courses

Tuition and Fees

New Combined Offices

The Customer Service Center is now providing service from its new home in 120 Hayden Hall. The Registrar's Office has been redesigned to combine student billing, account functions, and the Husky Card ID operation with the already-existing Registrar services. This conveniently located office will now be able to jointly address the overlapping needs of students as they plan their Northeastern education and manage the associated costs. In addition, please see the expanded student self-services on the Web at **myNEU.neu.edu**.

Tuition rates and fees are subject to revision by the Board of Trustees at any time. Tuition for University College and Lowell Institute School students is billed per hour of credit, with some exceptions.

Tuition Rates (per credit hour)

University College Undergraduate	\$232/q.h.
NUOL Undergraduate	\$812/3-q.h. course
(rates vary for graduate and noncredit courses; visit www.nuol.edu for details)	\$1,624/6-q.h. course
UC Graduate Certificate Programs	\$440/q.h.
The Lowell Institute School	\$310/s.h.

Special Rates

UC Part-time Nursing	\$327/q.h.
Emergency Medical Technician Basic	\$960/course
Paramedic Technology Certificate Course	\$240/q.h.
Computer Systems Specialist Program	\$9,495/full program

q.h. = quarter hour

s.h. = semester hour

University College students enrolled in one or more classes on the Boston campus pay \$8.25 per quarter for the facilities and services in the student center. Other part-time programs under a semester calendar pay a \$10 fee.

Reduced Rates for Intensive Courses

University College offers a selection of six- and eight-quarter-hour intensive courses. Intensives are identified as those courses listed with (Intensive) in the course title which combine two courses into one course. Intensives running on Fridays and Saturdays are offered at a special reduced rate that is \$200 less than the normal tuition. Six- and eight-quarter-hour intensives running Mondays through Thursdays are offered at the special reduced rate of \$100 less than the normal tuition.

Please note that hybrid intensive courses and NUOL online intensive courses do not qualify for tuition reductions.

Please also note that "special" classes that meet on alternative schedules such as for three all-day class meetings are not eligible for discounts. These reduced rates do not apply to any courses that are already offered at a special tuition rate. These special rates do not apply to summer courses that meet in four-, five-, or six-week terms.

Tuition Payments

Full payment of tuition and other related charges is due on the Saturday at the end of the first week of class. The following are accepted methods of payment:

- Check or Money Order made payable to Northeastern University
- MasterCard, Visa, Discover, or American Express. Payments may be made in person or by calling our 24-hour automated charge line **617.373.2319** or **800.937.4067** (outside Massachusetts)
- Enrollment in a monthly payment option plan

Tuition and Fees

Students are responsible for the prompt payment of all bills. If a bill has not been received by the first week of the quarter, please go to the Customer Service Center (120 Hayden Hall) or call **617.373.2270**; **TTY 617.373.3881**, and a bill will be created for you. Any discrepancies in your bill should be brought to the attention of the Customer Service Center. If there is a billing problem, pay the undisputed portion of the bill to avoid any additional late fees.

Transcripts and other academic records will not be released until all financial obligations to the University have been met.

Monthly Payment Options

Northeastern University offers a monthly payment plan each quarter to University College students. This is an interest-free and convenient way to pay your educational expenses. The plan is administered by Academic Management Services. For additional information or to enroll, please call **800.635.0120** or visit **www.tuitionpay.com**. There is a \$30 fee associated with this option. Payments for the winter quarter are due as follows:

January 5-17, 2004 – first payment plus the \$30 enrollment fee

February 2, 2004 – second payment

March 1, 2004 – third payment

Late Payments

A late fee will be added to the balance for all students who do not pay the amount due in full or make arrangements for the monthly payment option plan by the first Saturday of the quarter.

Refunds

Students who officially withdraw during an academic term will receive a tuition refund based on the policy specified on this page. Institutional funds awarded by Northeastern University will be adjusted based on the actual charges incurred during the term. Funds from federal Title IV programs will be returned to the government according to federal regulations. The federal government's "return of funds" policy dictates that a student's eligibility for federal financial aid is determined by the number of days enrolled in the term. The refund will be calculated from the date the withdrawal form is approved by the Registrar's Office.

Tuition credits are granted through the first five weeks of a full term or first two weeks of a half term based on the date of the official withdrawal processed by the Registrar's Office. Nonattendance does not constitute official withdrawal. Credit policies vary according to the duration of the course. Typical tuition adjustments are made according to the following schedule:

Official Withdrawal Adjustment - each week ends on Saturday.

During Full Semesters or Quarters

During the first week - 100% refund
During the second week - 90% refund
During the third week - 80% refund
During the fourth week - 60% refund
During the fifth week - 40% refund
After the fifth week - no refund

During Four-, Five-, and Six-Week Terms

During the first week - 100% refund
During the second week - 50% refund
After the second week - no refund

Payment option and credit policies vary on some courses such as intensives, workshops, and special sequence courses that start at other times during the year. If you are unsure about a course you are taking, contact the Customer Service Center, **617.373.2270** or **customerservice@neu.edu**.

The credit will be calculated from the date the withdrawal form is processed by the Registrar's Office.

Accreditation

Northeastern University is accredited by the New England Association of Schools and Colleges, Inc., a nongovernmental, nationally recognized organization whose affiliated institutions include elementary schools through collegiate institutions offering post-graduate instruction.

Policy Statements

The Adult and Continuing Education Winter 2004 *Schedule* contains Northeastern University's primary statements about these academic programs and degree and certificate requirements, as authorized by the president and the Board of Trustees. For information about other academic policies and procedures; student responsibilities; student academic and co-curricular life; faculty rights and responsibilities; or general personnel policies, benefits, and services, please refer to the University College *Bulletin*, the Web site www.ace.neu.edu, *Academic Operations Manual*, *Undergraduate and Graduate Student Handbook*, *Cooperative Education Handbook*, *Faculty Handbook*, *Benefits and Services Handbook*, or related procedural guides, as appropriate.

Campus Safety

Northeastern University is committed to assisting all members of the University community in providing for their own safety and security. Information regarding campus security and personal safety including topics such as crime prevention, university police law enforcement authority, crime reporting policies, crime statistics for the most recent three-year period, and disciplinary procedures is available upon request from the Northeastern University Director of Public Safety, 360 Huntington Avenue, Boston, MA 02115 or by calling **617.373.2696**.

Equal Opportunity Policy

Northeastern University does not discriminate on the basis of race, color, religion, sex, sexual orientation, age, national origin, disability, or veteran status in admission to, access to, treatment in, or employment in its programs and activities. In addition, Northeastern University will not condone any form of sexual harassment. Handbooks containing the University's nondiscrimination policies and its grievance procedures are available in the Office of Affirmative Action, 424 Columbus Place. Inquiries regarding the University's nondiscrimination policies may be directed to: Donnie Perkins, Dean/Director, Office of Affirmative Action and Diversity, Northeastern University, 360 Huntington Ave. - 424 CP, Boston, MA 02115, tel. **617.373.2133**; TTY **617.373.5814**.

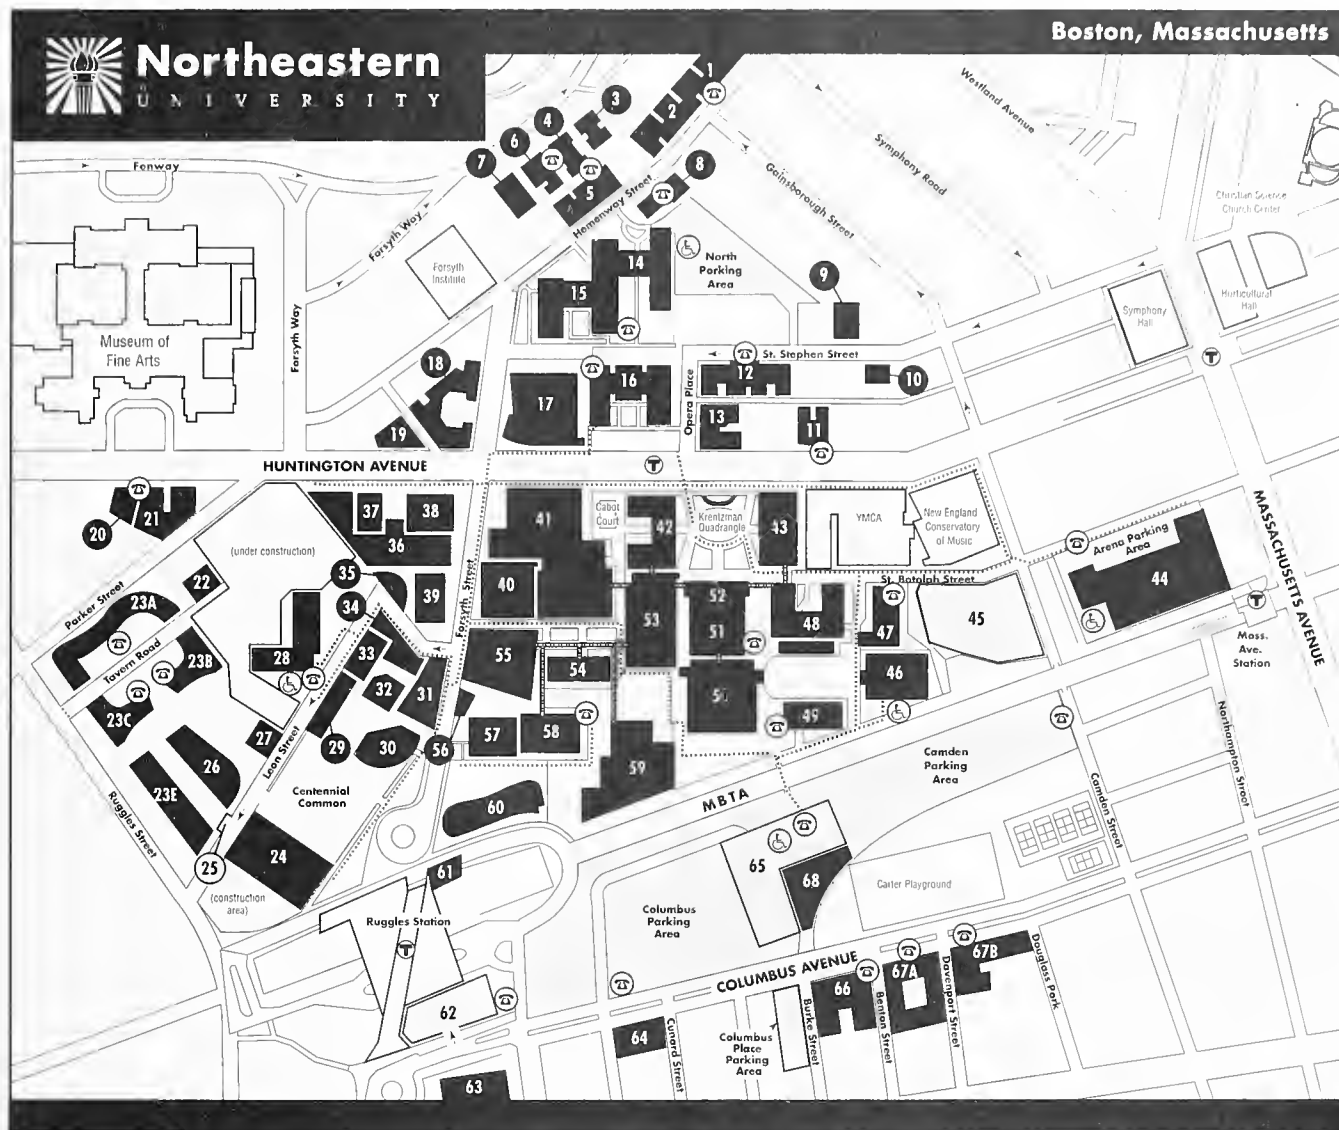

Inquiries concerning the application of nondiscrimination policies may also be referred to the Regional Director, Office for Civil Rights, U.S. Department of Education, J.W. McCormack Building, Post Office Court House, Room 222, Boston, MA 02109-4557.

Insufficient Enrollment Disclaimer

Northeastern University reserves the right to cancel any course if minimum enrollments, appropriate faculty, or academic facilities are unavailable to meet standards.

Tuition and Fee Policy

Tuition rates, all fees, rules and regulations, and courses and course content are subject to revision by the president and the Board of Trustees at any time.

Saturday, 8:30 a.m.-1:30 p.m.*

Beginning in winter 2004, a Husky Card will be required for parking at the Main Boston Campus. Please visit the Customer Service Center for more information.

Parking for properly registered University College and Lowell Institute School students is provided in the University student parking facilities on a first-come, first-served basis, Monday through Friday, 2:30 p.m.-11:00 p.m. Relaxed parking permit enforcement is in force during the first two weeks of classes in the Columbus Lot and Columbus Garage. The Renaissance Park Garage and the West Village Garage are only available to students after they have secured their parking permit.

Parking permits must be ordered online at www.parking.neu.edu OR you can visit the Northeastern home page and access the page through "Quick Links." Go to "Parking - Apply Online." Students can apply for permits online usually one week prior to the start of each quarter. Students must be registered for class (registration received and processed by the Registrar's Office) in order to be eligible for a parking permit. The fee is \$100 for evening students and will be charged to the applicant's tuition account. The permit is valid for the 2003-2004 academic year. Eligible applicants are told when they can go to the Cashier's Office (248 Richards Hall) to pick up their permits; applicants will be asked to show photo ID. The University has established a special Saturday rate for University College and Lowell Institute students who do not have a parking decal. They can park their vehicles in the Renaissance Park Garage for \$1.00 from 8:00 a.m. to 5:00 p.m. In order to obtain this special rate, you must present your University College/Lowell Institute quarter/semester ID to the attendant upon exiting the garage. If you do not have your NU ID you will be subject to the normal Renaissance Park Garage rates. No refunds or reimbursements will be granted should you present your ID at a later time and date.

Parking permits are not required at our satellite locations outside Boston. The University does not have any parking facilities at the Downtown Boston satellite campus. For more information, visit the parking Web page (www.parking.neu.edu) or call the Cashier's Office at

617.373.2366.

* Office hours may vary due to changes in class schedules.

Registration and Admissions

Telephone/Web Registration Begins October 20

University College has an open enrollment policy that enables students to take most courses and certificate programs simply by registering for the courses. Students who decide to pursue a degree program must apply for admission. For admission requirements, see the *Bulletin*, visit www.ace.neu.edu, or call **617.373.2400**.

Classes with insufficient enrollment by **December 16** will be canceled, and no such classes will be put on hold to wait for additional enrollees. Students may continue to register for classes with sufficient enrollment through the first week of classes (January 5-10).

New Students

If you are a new student, select your courses and complete the registration form on page 71. Use the Course Schedules beginning on page 32 to find the appropriate key, course, and section numbers.

There are four ways to register:

By fax

Fax your completed registration form to Northeastern University at **617.373.5351**. A cover sheet is not necessary. We cannot phone verify receipt of your fax.

By mail

Send your completed form to:

Registrar's Office
Northeastern University
360 Huntington Avenue – 120 HA
Boston, MA 02115-9959

Online

Visit www.ace.neu.edu/registration and click the “online” link. Then fill out and submit the online form.

In Person

You can register in person during any open hours at any campus. In addition, special in-person registration help is available at the following locations and dates:

- Main Boston Campus**, 12/1-12/4, 9:30 a.m.-7:00 p.m.
- Downtown Boston Campus**, 12/1-12/4, 11:00 a.m.-7:00 p.m.
- Burlington Campus**, 12/1-12/3, 5:30-7:30 p.m.
- Dedham Campus**, 12/2, 5:30-7:30 p.m.

If you've missed these registration dates, don't worry. Call **617.373.2400** before or during the first week of class for details on how to register in class.

If a registration advisor is not available at your campus and you have questions, you may call **617.373.2400** from that campus to speak with an advisor over the phone.

Continuing Students

In addition to the **fax**, **mail**, **online**, and **in-person** methods described at left, continuing students can use our automated phone system or myNEU Web Portal.

Register by phone using the Telephone Voice Response System.

- Call **617.373.8000**.
- Follow the voice prompts.
- You will be asked your Student ID (typically your Social Security Number) and your four-digit PIN (default PIN is the first four digits of your postal ZIP code).

Register on the Web using the myNEU Web Portal.

- Go to <http://myNEU.neu.edu>.
- Log in using your myNEU username and password (or click on “How do I get a myNEU username and password?” if you have never used the system before).
- Click on “Self-Service.”
- Then click on “Course Registration.”
- Follow the on-screen prompts.

Telephone and myNEU registration is not available after **January 17**. To register after that date, please call **617.373.2400**.

Registration for NUOL or ASL Courses

To register for online courses, visit www.nuol.edu. To register for American Sign Language classes, fax to **617.373.8574** or mail to Northeastern University, 360 Huntington Avenue – 270 Ryder Hall, Boston, MA 02115.

Registration Alternative for Deaf and Hard-of-Hearing Students and Students With Disabilities

In addition to the registration alternatives above, Deaf and hard-of-hearing students and students with disabilities that prevent them from using telephone registration can register by e-mail during the scheduled registration period. E-mail your course schedule to registrar@neu.edu. Include a telephone number, fax number, or e-mail address on your request so a Registrar's representative can contact you if necessary.

Winter 2004 Registration Form

Returning students are encouraged to register by Web or phone as explained on page 1.

Husky Card

Your Key to Northeastern University Student Services

University College students who haven't already done so should obtain a Husky Card. To get your Husky Card simply present a photo id (i.e. state license or passport) at the Customer Service Center in 120 Hayden Hall. With your Husky Card picture ID, you will have access to a wide variety of student services.

Use your Husky Card to access these services:

- Swipe card for University parking lots and garages
(If you plan to park, you need a Husky Card!)
- Debit card/Husky Account
- Secure access card to university facilities and events, such as
 - Snell Library
 - Computer and Instructional Laboratories
 - Marino Recreation Center
 - Cabot Gym
 - Badger & Rosen Squash and Fitness Facility
 - University athletic and cultural events

For more information, visit **www.customerservice.neu.edu**, call **617.373.2270**, or visit the Customer Service Office at 120 Hayden Hall Monday through Thursday 8:00 a.m.-7:00 p.m. and Friday 8:00 a.m.-4:30 p.m.
